Questions & Answers

Question February 16, 2021 from Jamie W.

I am trying to use the editable screens, is there a way to copy the background to a new slide? I have been trying and all it does is copy the writing.

Answer February 16, 2021 from Adulting Made Easy aka SpedAdulting (TpT Seller)

Hi Jamie,

You will need to make a copy of the slide (the background is embedded in the slide and cannot be copied/pasted in that manner). If you right click on the slide in the left hand window, it should give you the option to make a copy.
