★★★★★ Very satisfied

This is a great resource to use at the beginning of the year. It captures students' interests, along with covers so many areas of the parents' plans for their students. The visuals are great, plus there is an area for my students who want to add something in.

Students used with 12th grade, Adult Education  
Primarily students on the autism spectrum, and with mild to severe disabilities

I used this with my MSO and Physical Students. It transitioned well to both groups. I'm already looking forward to using it in a variety of ways once all my students return to school.

Question January 24, 2020 from Elizabeth E.

Hi,

My name is Betsy Earleywine and I represent the Anoka-Hennepin School District. We are interested in purchasing several of your products. However, with the size of our district and the varying needs it is really hard for us to make a large purchase knowing exactly which teachers would need it. It would be much easier for us to have a district license and feel ok that we are sharing it as part of a resource bank for all of our teachers to access. Is there a district purchase option that you could offer to us? The following is a list of the items we are interested and the breakdown of the number of teachers we would foresee using the most.

Please let us know if a district license for each of these products can be negotiated.
